ABOUT SARAH

Sarah Ross, is an international speaker and consultant, specializing in working with corporations, executive teams, and compliance professionals, who are looking to break away from the “profit at any cost” mentality, and want to drive business success with Integrity, through ethical leadership. Sarah is an award-winning inspirational speaker, known for provoking ethical mindset changes in her audiences. She also works with organizations to improve their compliance programs, and to train executive teams and compliance officers on ethical decision making as a key driver to business success.

"Iconic Women Creating a Better World For All"
WEF 2017 Award Winner for Business Ethics

MOST POPULAR KEYNOTES

"Compliance is not the enemy. It's your secret weapon."

Ethics, Integrity, and Compliance are not dirty words. If you aren't speaking to your Compliance Officer as often as your CFO, your compliance program is not empowered. Raise the voice of ethics in your organization so it adds value, not obstacles.

"Integrity Passport: Don't leave home without it."

Are you tired of your international team meetings resembling playgrounds? Do you hear the phrase “That's not how things are done here” whenever change is suggested? Its time to equip your multi-cultural teams with the tools for success.

"Ethical Leadership: Doing the right thing saves millions"

Is being ethical a top priority or a last resort for your organization? Is compliance more like roadside assistance, only called in to make problems go away? Correcting mistakes is more expensive than preventing them in the first place, so it's time for a new way of decision-making.

IDEAL AUDIENCES

- Chief Compliance Officers
- Compliance Officers/Managers
- CEO/Executive Teams
- International team managers

THE REVIEWS

"Absolutely compelling speaker. One of the most remarkable storytellers that I have encountered, in both my professional and personal life"
